Subject: Expression of support to the proposal: "Closed loop pyroshock simulator based on (de)synchronized pulses for testing of aerospace components"

Thales Alenia Space, as a world leader in the field of production of space systems would like to express a strong support to the project of the innovative pyroshock simulator.

This innovative product, aiming to find more effective ways to simulate the consequences of pyrotechnic devices on space equipment, would profoundly improve the reliability of the electronic for space applications.

Your Sincerely

Piero Messidoro

TAS-I Chief Technical Officer

A handwritten signature in black ink, appearing to be 'P. Messidoro'.
